If some destinations aren't mentioned, it doesn't mean that we can't organize something there.

Some of these destinations are; Qasigiannnguit, Qaanaaq, Tasiilaq, Upernavik, Itilleq and many more.

GREENLAND CRUISES

- RESPONSIBILITY IS A VIRTUE

Handling shore excursions and creating the best solutions for cruise ships when visiting Greenland is the core business of Greenland Cruises. Our values, however, are far beyond the business side of things. Being a 100% local Greenlandic company, our work is completely reliant on local knowledge and engagement. During and post the corona crises, local engagement becomes ever more important to sustain in our tourism sustainably in the future.

Cruise tourism in small cities, settlements and on natural sites requires understanding and respect. Greenland Cruises is making sure to give back good experiences to those locally who engage in cruise tourism.

Rooting our values in responsibility and sustainability, we are looking forward to welcome you within the frames that will be possible in 2020 and under more normalised circumstances in the future.

OUTLINING OUR RESPONSIBILITY:

BUSINESS MEANS LOCAL DEVELOPMENT

We want our customers to obtain an outstanding experience in Greenland, based on leaving a positive trace on local communities. Greenland Cruises therefore takes great pride in engaging with local operators and communities for our cruise operations. Our local anchorage is the strong backbone of Greenland Cruises and we build our work on local values and responsibility.

PROTECT AUTHENTICITY

Authenticity is not something you can buy. Greenland is an authentic destination in a way that other destinations can only dream about. It is important for Greenland Cruises to take part in preserving this authenticity. The knowledge of our local operators help us plan activities avoiding negative footprints on local livelihoods and the environment.

WE ENGAGE

Securing local engagement is important to support the local economy. By building our actions on partnerships and engagement we support a sustainable tourism development in Greenland.

WE EMBRACE

Greenland Cruises embraces the sustainable development agenda outlined by the Sustainable Development Goals. Greenland Cruises also embraces the work done by AECO, as their guidelines are contributing to sustainable expedition cruise operations in Greenland. Greenland Cruises supports the compliance in Greenland, also among our non-expedition visitors.

WE COMPLY

Greenland Cruises makes sure that our cruise operations in Greenland comply with health and safety regulations. And we make sure that our local operators operate with precaution and actions in respect to the COVID-19 outbreak.

SEE YOU IN GREENLAND

It is important for Greenland Cruises to give back.

Ivik, the owner, who is born and raised in Greenland, has since he established Greenland Cruises sponsored several things:

- helicopter tour for elderly
- several sport clubs
- church decorations
- many boat tours for those who can't afford themselves
- christmas gifts to low income families
- lunch boxes to a shcool in Ilulissat for the entire winter
